January 10, 2014

Dear valued Customer,

Due to the rising costs of the raw material utilized to make polyurethane foam, AUT is forced to increase its selling prices on all foam products effective with shipments on February 17, 2014.

Your AUT Account Manager will be contacting you with further details regarding these increases. All of us at AUT appreciate your business and will do everything possible to keep these increases at a minimum.

Sincerely,

Joseph Progal  
EVP OF OEM
