Dear Valued Customer,

Effective September 15, 2014, or as contracts allow, Bayer MaterialScience LLC will increase the price of all polyether polyol products (base and polymer polyols) by \$0.05/lb. for all end use markets in North America.

Your sales representative will contact you to explain this increase in more detail and to answer any questions you may have. We appreciate your business and look forward to supplying your polyurethane requirements.

Sincerely,
